

IRREGULARITY IN STOCKS

New York Tractions Strong, But General List Off.

Continuance of Heavy Shipments of Gold and Probability of Advance in Money Rates Have a Depressing Effect—The Northern Pacific Deal.

NEW YORK, Nov. 12.—The stock market opened active, but displayed only irregular tendencies. The money market announcement respecting the settlement of the Northwestern railway situation resulted in a stronger market for both St. Paul and Union Pacific, but seemed to carry very little influence in the remainder of the market.

The local traction stocks all resumed the decided strength which they have shown of late, notably for Metropolitan and Manhattan. The anthracite coal stocks, while fairly active, were dealt in fractionally below yesterday's final prices. The United States Steel issues continued very active, but moved within very narrow limits. There was little activity elsewhere in the industrial quarter.

Among the specialties moderate dealings were noted in Tennessee Coal and Iron, Amalgamated Copper, and People's Gas.

London again sent in a materially lower range of prices for American stocks and foreign houses sold quite heavily here upon the opening of business. The chief topics of discussion, apart from the Northern Pacific, were the heavy shipments of gold expected by tomorrow's and Saturday's steamships and the probability of a further advance in the rate for money on call. This seemed to have a rather depressing effect.

New York Stock Exchange.
